

## INDEPENDENT SERVICE, QUALITY AND PERFORMANCE

There's a huge difference between something  
being "in place" and it being "in practice"

### **Our mission**

is to provide a full spectrum of kitchen and front cooking systems, subsystems and components world-wide.

Our strengths are world-class design and systems integration, superior production and innovative life cycle support.

We will deploy these strengths to meet our customers' needs in a changing world.

We hope that you can use the following pages to gain insight into our unique service capabilities.

These are just some examples of the independent services we can offer you worldwide!

# KCCindustries

## **No stickability means no sustainability**

One of the greatest responsibilities of a Leadership Team is not just to set the strategic direction for the company, but to make certain that everyone understands the context of that direction, is aligned behind it and knows exactly where they are on the journey. Leaders must articulate their vision, share ownership, establish Key Performance Indicators and then monitor and communicate progress to encourage ongoing buy-in.

Be crystal clear who your consumer or customer is and what you do for them better than anyone else can. These two things make for the essential promise of your brand: understand it, and stick to it.
